W3 Associate or Full Professor; to begin as soon as possible.

### **Scientific environment**

The professorship will be assigned to the Department of Computer Engineering of the TUM School of Computation, Information & Technology. It will be located at the TUM Campus Garmisch-Partenkirchen and affiliated with the Integrative Research Center (IRC) Munich Institute of Robotics and Machine Intelligence (MIRMI).

### **Responsibilities**

The responsibilities include research and teaching as well as the promotion of early-career scientists. We seek to appoint an expert in one of the following research areas:

- Natural human-robot interaction
- Intelligent telerobotics
- Robotic Healthcare Assistance

Teaching responsibilities include courses in the university's bachelor and master programs, especially in the professional profiles "Electrical and Computer Engineering" and "Informatics". In particular, the professorship is expected to assume a significant key role in designing and developing the M.Sc. program Geriatrics at the TUM Campus Garmisch-Partenkirchen (planned to be established for winter semester 2030/31).

### **Qualifications**

We are looking for candidates who have demonstrated excellent achievements in research and teaching in an internationally recognized scientific environment, relative to the relevant career level (please see [www.tum.de/en/faculty-recruiting-faq/](http://www.tum.de/en/faculty-recruiting-faq/) for further information).

A university degree and an outstanding doctoral degree or equivalent scientific qualification, as well as pedagogical aptitude, are prerequisites. Substantial research experience abroad is expected.

### **Our Offer**

Based on the best international standards and transparent performance criteria, TUM offers a merit-based academic career path for tenure track faculty from Associate Professor to Full Professor. The regulations of the TUM Faculty Recruitment and Career System apply.

TUM provides excellent working conditions in a lively scientific community, embedded in the vibrant research environment of the Greater Munich Area. The TUM environment is multicultural, with English serving as a common interface for scientific interaction. TUM offers attractive and performance-based salary conditions and social benefits.

The TUM Munich Dual Career Office (MDCO) provides tailored career consulting to the partners of newly appointed professors. The MDCO assists the relocation and integration of new professors, their partners and accompanying family members.

### **Your Application**

TUM is an equal opportunity employer and explicitly encourages applications from women. The position is suitable for disabled persons. Disabled applicants will be given preference in case of generally equivalent suitability, aptitude and professional performance. Application documents should be submitted in accordance with TUM's application guidelines for professors. These guidelines and detailed information about the TUM Faculty Recruitment and Career System are available at [www.tum.de/faculty-recruiting](http://www.tum.de/faculty-recruiting). Here you will also find TUM's information on collecting and processing personal data as part of the application process.

Please submit your application by **23 February 2025** via the TUM recruitment portal: [www.recruit.tum.de](http://www.recruit.tum.de)
