Job Description

The Department of Electrical and Computer Engineering (ECE) at the University of Iowa invites applications and nominations for an instructional track faculty position at the rank of Assistant Professor of Instruction (https://opsmanual.uiowa.edu/human-resources/faculty/instructional-faculty-policy) in the general area of computer engineering, computer science and/or electrical engineering to begin in the fall semester of 2025. This position is a full-time academic year appointment and includes an initial three-year contract with the possibility of renewal. Instructional Track Faculty play an important role in advancing the teaching excellence of the College of Engineering. Promotion and advancement opportunities are available for instructional track faculty positions.

Candidates must be committed to excellence in teaching at every level in the ECE curriculum and able to teach software and hardware-related courses. Essential qualifications include evidence of a strong ability to integrate impactful teaching methodologies, a passion for mentoring students in the general areas of computer engineering, computer science, and/or electrical engineering, excellent communication skills, and a demonstrated ability to foster a welcoming and respectful environment. Prior teaching or professional experience in computer engineering, computer science, and/or electrical engineering is desirable.

The successful candidate is expected to be an engaging and effective teacher in the areas of computer engineering, electrical engineering, and/or computer science. Position responsibilities include classroom teaching of courses, effective laboratory development and supervision, undergraduate student advising, and collaborating with other faculty on innovative teaching methods and curricular advances. The salary and work expectations are based on the University's academic year.

At the University of Iowa, we embrace our responsibility to create a welcoming and respectful campus culture so that all community members can unlock their own potential. Faculty members in the College of Engineering contribute to this mission by designing curricula, research programs, and engagement opportunities that advance understanding of how engineering can positively impact society and emphasize the value of global citizenship. We are committed to recruiting and retaining the most talented and diverse faculty and staff, which involves providing opportunities for employees to "Build a Career | Build a Life." For more information about local work/life resources, including dual-career support, please see: https://worklife.uiowa.edu/.

Review of applications will begin on January 6th and applications will be accepted through February 14th, 2025.

Required Qualifications:

- PhD in computer engineering, electrical engineering, computer science, or related field
- Commitment to teaching at every level in the ECE curriculum.
- Excellent communication skills.
- Ability to teach at least five of the topics listed below.
