. The appointed applicant will teach in the Department of Civil and Environmental Engineering at Qatar University. **The applicant should have a track record in collaborating or working with the industry through practical projects such as Traffic Impact studies, and Traffic simulation modelling.**

The applicant should have a strong commitment to teaching excellence at the undergraduate and postgraduate levels. The appointed candidate will complement the existing faculty in the department and will develop and sustain funded research programs and publish in leading journals.

The highly competitive employment package is commensurate with experience and rank. For more information, please visit Qatar University HR website at <http://www.qu.edu.qa/offices/hr/>.

Qualifications:

The successful candidates are expected to hold a Ph.D. degree in Civil Engineering from a prestigious university. They should also have expertise in the relevant areas and a track record of scholarly activities in the field. English language is essential. Candidates with industrial experience will be looked at favorably. Experience in managing research projects and/or professional practices will also be advantageous.

Application deadline:	Open Until Filled
Position category:	Academic
Employment type:	Full time
Academic rank:	Assistant or Associate Professor

Competencies:

Successful applicants should be able to:

1. Be able to adopt and develop a “student centered” approach to teaching and learning,
2. Teach undergraduate and postgraduate courses in related Civil Engineering disciplines.
