develop an externally funded research program in structural engineering or a related field.

A strong background in advanced manufacturing or construction (such as 3-D printing with concrete), bridge engineering, machine learning in civil engineering, automated construction or mechatronics, advanced materials with civil engineering applications, energy infrastructure, computational modeling, blast mechanics or micro-mechanical modeling is desirable but not necessary for applicants.

### Required Education, Experience, Certification/License, Equivalency

Bachelor's and PhD degrees in Civil Engineering or closely related fields are required. Professional licensure, or the ability to become licensed within five years, is required.

Target Hourly/Salary Rate: Commensurate on education & experience

Applicants should attach a cover letter, curriculum vita, a two-page statement of teaching interests, a two-page statement of research interests, and contact information for three professional references (including name,address, telephone, and email). Applicant must include official and evaluated transcripts as part of their application.

### **EEO/AA Policy**

New Mexico State University, in compliance with applicable laws and in furtherance of its commitment to fostering an environment that welcomes and embraces diversity, does not discriminate on the basis of age, ancestry, color, disability, gender identity, genetic information, national origin, race, religion, retaliation, serious medical condition, sex (including pregnancy), sexual orientation, spousal affiliation, or protected veteran status in its programs and activities, including employment, admissions, and educational programs and activities. Inquiries may be directed to the Executive Director, Title IX and Section 504 Coordinator, Office of Institutional Equity, P.O. Box 30001, 1130 E. University Avenue, Las Cruces, NM 88003; 575-646-3635; equity@nmsu.edu.
