- Develop and teach courses in STEM communication
- Formulate and implement student excellence initiatives, ABET objectives, and diversity enhancement
- Assist in the analysis of student academic progress and retention  
Contribute to assessment activities

In addition to effective teachers, the Department of Engineering Education seeks teacher-scholars who can contribute to new programmatic initiatives and teaching practices. Participation in innovative research is encouraged.

We are particularly looking for candidates who can operate effectively in a team environment and in a diverse community of students and faculty, sharing our vision of helping all constituents reach their full potential.
