<b>Job Description</b>	

School of Electrical and Electronic Engineering is one of the founding Schools of the Nanyang Technological University. Built on a culture of excellence, the School is renowned for its high academic standards and research. With over 3,000 undergraduates students and 1,000 graduate students it is one of the largest EEE schools in the world and ranks 10th in the field of Electrical & Electronic Engineering in the 2024 QS World University Rankings by Subjects.

Today, the School has become one of the world's largest engineering schools that nurtures competent engineers and researchers. Each year, the School graduates over a thousand students who are ready to take on great ambitions and challenges.

For more details, please view: <https://www.ntu.edu.sg/eee> and <https://www.ntu.edu.sg/coft>

The Centre for Optical Fiber technology (COFT) hosts state-of-the-art fabrication equipment for several kinds of optical fibres, ranging from standard silica fibres to a variety of advanced specialty fibres, microstructured fibres and novel glasses. Key equipment includes a 8.5 m dual-side fibre drawing tower, a Modified Chemical Vapour Deposition (MCVD) fibre preform lathe hosted in 200 m<sup>2</sup> of cleanroom space. The facility also includes 300 m<sup>2</sup> of dedicated chemical preparation area for glass etching and machining, advanced fibre processing and characterisation systems,

We are looking for a Project Officer to support optical fiber fabrication and facility management at the Centre for Optical fiber Technology. The role will focus on fabrication of optical fibers using modified chemical vapor deposition and stack-and-draw technique. The Project Officer will also be responsible for the upkeep for the fiber fabrication facility.

**Key Responsibilities:**

- Fabricate optical fibers in the fiber fabrication facility at NTU.
- Characterize basic properties of the optical fibers fabricated and cataloguing them.
- Maintain and troubleshoot of fiber fabrication facility.
- Provide logistical and administrative support pertaining to laboratory operations.

**Job Requirements:**

- Bachelor's degree in Materials Science Engineering, Electrical and Electronic Engineering, or related field.
-
