applications for teaching term appointments in the fields of Electrical and Computer Engineering, commencing April 1, 2025, or earliest thereafter. Candidates should possess expertise in at least one of the following areas:

- Digital Hardware
- Software Engineering
- Power Systems

Candidates should hold a Master's or Ph.D. degree in Computer Engineering, Electrical Engineering, or a cognate area. One appointment will be for a term of three years (subject to renewal) at a rank appropriate to the qualifications of the candidate. The other appointment will be for a term of nine months. The successful candidates will be expected to participate in the academic programs of the Department of Electrical and Computer Engineering, including teaching undergraduate and graduate courses, developing laboratories, designing new course materials and supervising student projects. The successful candidates will be expected to register as professional engineers in the Province of Newfoundland and Labrador.

The Department of Electrical and Computer Engineering has well-established co-operative undergraduate programs in both Electrical Engineering and Computer Engineering, and active graduate and research programs as well as on-going collaboration with local, national and international industry. For information on the Department of Electrical and Computer Engineering, please visit https://www.mun.ca/engineering/ece. For more employment opportunities at the Faculty, please visit https://www.mun.ca/engineering/about/employment-opportunities/.

Perched on Canada's North Atlantic coast, Memorial University is a destination for discovery. A beacon for the 21st-century explorer, Newfoundland and Labrador's university is a unique learning community founded in 1925 as a living memorial to those who lost their lives in the First World War — "that in freedom of learning their cause and sacrifice might not be forgotten." Today more than 17,000 students from nearly 115 countries come together to discover. From the classics to advanced technology, this comprehensive university offers certificate, diploma, undergraduate, graduate and postgraduate programs across six campuses, numerous locations and online. A global network of more than 100,000 accomplished alumni throughout the world strengthens Memorial University's capacity and reputation for leadership in world-class research, teaching and public engagement. To take a closer look, visit www.mun.ca.

Memorial University is committed to employment equity, diversity, inclusion and anti-racism, and encourages applications from all qualified candidates, including: women; people of any sexual orientation, gender identity, or gender expression; Indigenous Peoples; visible minorities, and racialized people; and people with disabilities. All applicants are invited to identify themselves as a member of an equity-deserving group(s) as appropriate. Applicants cannot be considered as a member of an equity-deserving group(s) unless they complete an employment equity survey. Memorial is committed to providing an inclusive learning and work environment. If there is anything we can do to ensure your full participation during the application process, please contact equity@mun.ca directly and we will work with you to make appropriate arrangements.

All qualified candidates are encouraged to apply; however, citizens and permanent residents of Canada will be given priority.

We acknowledge that the lands on which Memorial University's campuses are situated are in the
