The work will involve implementing prototypes and conducting tests to validate the effectiveness of the proposed solutions.

- Assess technologies for narrative processing and visualization; implement a module for processing narrative representations.
- Develop web prototypes for narrative visualization.
- Implement a module for linking narratives to knowledge bases.
- Conduct usability tests and performance analysis of the prototypes.
- Collaborate in writing scientific publications.
- Write the scholarship activity report.

Academic Qualifications

- Degree in computer engineering or related field.

Minimum profile required

- Degree average of 14 or more.

Preference factors

- Relevant experience in web development.
- Relevant experience in the area of information visualisation.
- Passed or recently attended a Web Development course.
- Knowledge of web programming languages (HTML, CSS, JavaScript).
- Proficiency in Portuguese.
