Job Description

Assistant Professor of Computer Science & Assistant Professor of Mechanical Engineering

Overview:
The School of Computing and Engineering at Quinnipiac University prides itself in its excellence in education. Evidence of this excellence can be seen in everything from student success in obtaining

high-quality internships and full-time positions, to the number of faculty members in the School who have earned University-wide awards for excellence in teaching.

We are seeking candidates with a passion for teaching and a strong research agenda to join the faculty **full-time tenure-track position in Mechanical Engineering at the Assistant Professor level starting Fall of 2025.**

We are also seeking candidates with a passion for teaching and a strong research agenda to join the faculty as a **full-time tenure-track position in Computer Science at the Assistant Professor level starting Fall of 2025.** With the planned launch of our new MS in Informatics program, we are seeking a candidate who can be an integral part of building this new program. Preference will be given to candidates specializing in Informatics, Big Data, or Data Science.

About the School:
The School of Computing and Engineering became the ninth school at Quinnipiac University on July 1, 2016. The school offers BS and BA degrees in computer science; BS degrees in civil, industrial, mechanical and software engineering; and MS degrees in computer science and cybersecurity. All BS degrees are ABET accredited. Housed in the renovated Communications, Computing, and Engineering building, the school features newly constructed and outfitted laboratories and classrooms. Dedicated to providing the best possible learning experience for our students, the school focuses on high-quality instruction, and offers hands-on training, applied learning opportunities and meaningful student-faculty relationships.

About Quinnipiac:
Quinnipiac University is a private, coeducational institution located 90 minutes north of New York City and two hours from Boston. The university currently has an enrollment of 9,400 students in more than 150 degree programs through its Schools of Business, Communications, Education, Computing, and Engineering, Health Sciences, Law, Medicine, Nursing, and the College of Arts and Sciences. Our 21 Division I teams have achieved remarkable success, boasting multiple conference titles. This includes a 2023 NCAA National Championship win in ice hockey, a three-time defending national champion women's rugby team, and a trip to the Sweet 16 for our women's basketball team. The Quinnipiac University Poll is nationally recognized as a leader in public opinion research, and the university is consistently recognized by U.S. News & World Report and Princeton Review's "The Best 388 Colleges." The university is in the midst of program expansion and renewal for both traditional and adult learners, attraction of diverse communities, development of innovative corporate partnerships, and construction of an ambitious set of capital projects.
