Job Description	

PhD Research Assistantship for students with background of Scientific Machine Learning
University of Georgia

We are looking for PhD students with expertise in scientific machine learning, such as physics-informed machine learning or neural operators.   The students will work on solving biomedical challenges by combining clinical data with computational simulations using scientific machine-learning models. For more information, please contact he.li3@uga.edu. PI's information can be found at https://cbme.engr.uga.edu/sample-page/
