position include teaching data analytics courses as assigned by the department chair.

Applicants must have an earned doctorate in computer science, information science/systems, data science/analytics, or applied statistics (anticipated completion before starting the position is acceptable). Successful candidates should demonstrate the ability to motivate and inspire students through effective teaching and communication.

To apply, please submit the following:

- A cover letter explaining your interest in the position,
- A clear statement of your teaching and research interests,
- A complete curriculum vitae,
- The names and contact information of at least three references
- A one- to two-page personal statement indicating how your research, teaching, and service will make a distinctive contribution to the [University's mission](#) and to the vision of Catholic education outlined in the Apostolic Constitution on Catholic Universities [Ex Corde Ecclesiae](#).

These materials should be uploaded to <https://engineering.catholic.edu/opportunities>

The University will perform background checks on all new faculty hires before making the final offer of employment.

Further inquiries about this position should be sent to
