Position Summary

Adjunct Instructor openings available in the [School of Engineering and Applied Sciences \(SEAS\)](#) at the University at Buffalo (UB) through a variety of part-time positions. Enthusiastic, forward-thinking faculty are invited to apply, particularly those who can operate effectively in a team environment and in a diverse community of students and faculty, helping all students reach their full potential.

Candidates should have the ability to teach a range of seated or on-line courses in a discipline of engineering at the undergraduate or graduate level, as needed.

Successful candidates will:

- Demonstrate appropriate knowledge of subject.
- Provide students with appropriate learning materials and expertise in assigned subjects.
- Evaluate students performance and provide effective feedback to guide student learning and success.
- Contribute to maintaining an inclusive and collaborative environment.

About the Department

The School of Engineering and Applied Sciences has 9 academic departments: Biomedical Engineering; Chemical and Biological Engineering; Computer Science and Engineering; Civil, Structural and Environmental Engineering; Electrical Engineering; Engineering Education; Industrial and Systems Engineering; Materials Design and Innovation; and Mechanical and Aerospace Engineering.

The University at Buffalo is a diverse, inclusive and scholarly community dedicated to bringing the benefits of its research, scholarship, and educational excellence to global and local communities in ways that impact and positively change the world. We view the three traditional pillars of the public higher education mission—research, education, and service—as interdependent endeavors that continually enrich and inform each other. Groundbreaking research, transformative educational experiences, and deeply engaged service to its communities define the University at Buffalo's mission as a premier, research-intensive public university.
