Position description

We are generating an applicant pool of qualified temporary instructors to teach regular and Summer Session courses, should an opening arise. In addition to lecturing responsibilities, general duties for these positions include laboratory teaching, holding regular office hours, assigning grades, advising students, and preparing course materials and exams.

We are also seeking applicants for Teacher Special Programs (TSP), should an opening arise. TSP instructors will be responsible for overseeing capstone projects in the Master of Engineering (MEng) program in the Department Mechanical Engineering. This includes: design and propose capstone projects and help match students into suitable projects. Meet with each capstone project team on a regular basis to review results, manage interpersonal aspects, and maintain efficient progress. Provide critical, constructive feedback on students' written reports and oral presentations. Coordinating and participating in the MS Plan II exam of each student at the end of the capstone project period. This pool encompasses engineering science and technology specializations relevant to both mechanical engineering and aerospace engineering.
