Job Description	

The Department of Civil and Environmental Engineering (CEE) at Temple University invites applications for two (2) **Non-Tenure Track (NTT) faculty positions**, one in Civil Engineering and one in Environmental Engineering.

An NTT faculty is generally expected to teach four courses (3 credits each) per semester in their area of expertise, as well as serve on Department and College committees. Preferred areas of Civil Engineering expertise include: Transportation Engineering, Construction Engineering, Geotechnical Engineering, and Probability and Statistics. Preferred areas of expertise in Environmental Engineering include Hydrology, Hydraulics, Stormwater Management, Air Pollution Control, Life Cycle Assessment,

Contaminant Dynamics, and Probability and Statistics. Candidates who can teach in multiple areas are preferred.

Preferred candidates will hold a PhD in Civil Engineering, Environmental Engineering or a related field, hold a Professional Engineering (PE) license, and be qualified to teach courses in 2 or more of the subject areas listed above.

Temple University, a Carnegie high research activity (R1) public university and among the largest providers of higher education in the United States, enters its second century strategically positioned to prepare the next generation of engineering professionals. The Department of Civil and Environmental Engineering continues to play a critical role in that capacity with its vibrant and successful undergraduate and graduate programs.

Review of applications will start immediately and continue until the positions are filled. For full consideration, interested candidates should submit the following materials through Academic Jobs Online: (1) cover letter; (2) curriculum vitae; (3) teaching statement; (4) contact information of four professional references.
