Ph.D. Position in Biomedical Engineering

We have an open research position for a highly motivated, full-time Ph.D. student to work on the optimization of a novel microfluidic electrofiltration platform capable of separating charged biological nanoparticles - a novel technology developed in the Sen laboratory for isolating different populations of extracellular vesicles from biological fluids.

Qualifications:

- B.Sc. and M.Sc. degrees in biomedical engineering, chemical engineering, or related discipline.
- Prior experience in designing and carrying out laboratory experiments.
- Strong technical background in fluid mechanics and nanoparticle interactions.
- Strong technical background in nanoparticle interactions within electrical fields
- Experience in computational fluid dynamics and microscale simulation using COMSOL Multiphysics (fluid flow and electromagnetics modules).

Responsibilities will include:

- Conducting scientific research independently, and in a responsible, ethical, and sustainable manner.
- Maintaining accurate and organized records of experimental procedures and results.
- Leading the preparation of scientific manuscripts for publication in reputable peer-reviewed journals.
- Presenting research findings at scientific conferences.
- Actively managing collaborative work with other research groups.
- Contributing to laboratory operations.
- Supporting efforts related to Equity, Diversity, Inclusion and Accessibility.

How to Apply:

We welcome applications from anyone with the requisite qualifications. Interested candidates are encouraged to submit their application package to Dr. Sen at asen@ucalgary.ca. The application package should include the following:

- A cover letter highlighting your motivation for applying and your relevant qualifications for this position.
- An up-to-date CV.
- The name and contact information of at least two references.

Application Deadline:

Review of applications will begin March 21, 2025, and applications will continue to be accepted until the position is filled. Please note that only short-listed applicants will be contacted for an interview. The anticipated start date for this position is September 1, 2025, but can be negotiated.

About the Schulich School of Engineering

The Schulich School of Engineering, founded in 1965, is home to six engineering departments, nearly 200 faculty members, over 4000 undergraduate students, and more than 2000 graduate students. Guided by its strategic plan ([Schulich Momentum](#)), the school continues to pursue its vision of recognition for enhancing its global research impact and driving innovation, for expanding access to

and inclusivity in engineering, for contributions towards Truth and Reconciliation, and for enriching student success and experience.

About the University of Calgary

UCalgary is Canada's entrepreneurial university, located in Canada's most enterprising city. It is a top research university and one of the highest-ranked universities of its age. Founded in 1966, its 36,000 students experience an innovative learning environment, made rich by research, hands-on experiences and entrepreneurial thinking. [Start something](#) today at the University of Calgary. For more information, visit ucalgary.ca.

The University of Calgary has launched an institution-wide [Indigenous Strategy](#) committing to creating a rich, vibrant, and culturally competent campus that welcomes and supports Indigenous Peoples, encourages Indigenous community partnerships, is inclusive of Indigenous perspectives in all that we do.

As an equitable and inclusive employer, the University of Calgary recognizes that a diverse staff/faculty benefits and enriches the work, learning and research experiences of the entire campus and greater community. We are committed to removing barriers that have been historically encountered by some people in our society. We strive to recruit individuals who will further enhance our diversity and will support their academic and professional success while they are here. In particular, we encourage members of the designated groups (women, Indigenous peoples, persons with disabilities, members of visible/racialized minorities, and diverse sexual orientation and gender identities) to apply. To ensure a fair and equitable assessment, we offer accommodation at any stage during the recruitment process to applicants with disabilities. Questions regarding [diversity] EDI at UCalgary can be sent to the [Office of Equity, Diversity and Inclusion \(equity@ucalgary.ca\)](#) and requests for accommodations can be sent to Human Resources (hrhire@ucalgary.ca).

The University of Calgary is Canada's leading next-generation university – a living, growing and youthful institution that embraces change and opportunity with a can-do attitude. Located in the nation's most enterprising city, the university is making tremendous progress on its Eyes High journey to become one of Canada's top five research universities, grounded in innovative learning and teaching and fully integrated with the community it both serves and leads. Ranked as the top young university in Canada and North America, the University of Calgary inspires and supports discovery, creativity and innovation across all disciplines. For more information, visit ucalgary.ca.

About Calgary, Alberta

Ranked the 5th most livable city in the world, Calgary is one of the world's cleanest cities and one of the best cities in Canada to raise a family. Calgary is a city of leaders - in business, community,
