**Key Responsibilities:**

- Responsible for developing explainable machine learning algorithms for TBM risk identification
- Developing practical tools to optimize TBM operation parameters
- Writing and publication of results in peer-reviewed journals
- Assist in securing external funding through grant applications and proposals

**Job Requirements:**

- Master's degree in Civil Engineering or related field
- At least 2 years of relevant experiences in technical hands-on experience for TBM tunneling
- Excellent programming skills, such as Python, MATLAB, or other competent languages.
- A good record of publications in reputable peer-reviewed journals or conferences
- Proficiency in written and spoken English - essential for data analysis and communication with stakeholders
- Previous experience in proposal writing is a plus
