The School of Civil and Environmental Engineering (CEE) at Nanyang Technological University is a leading school for Sustainable Built Environment. It has over 50 faculty members and more than 1,500 students and is rapidly expanding its range of education and research activities.

Key responsibilities:

- The Project Officer should be familiar with geotechnical engineering, data analytics, and/or underground engineering.
- The Project Officer will be mainly responsible to process tunneling data and analyze the data using machine learning algorithms.
- The position involves in conducting research, supervising undergraduate students, and writing project reports and scientific articles.

Job Requirements:

- A Bachelor Degree in geotechnical engineering or equivalent from a recognized university;
- Able to work independently and collaborate with team members;
- Good verbal and written communication in English - essential for data analysis and communication with stakeholders
- Working or research experience in geotechnical engineering and/or underground engineering of at least 1 years is desirable.

We regret that only shortlisted candidates will be notified.
