one of the largest EEE schools in the world and ranks 4th in the field of Electrical & Electronic Engineering in the 2025 QS World University Rankings by Subjects.

Today, the School has become one of the world's largest engineering schools that nurtures competent engineers and researchers. Each year, the School graduates over a thousand students who are ready to take on great ambitions and challenges.

For more details, please view: <https://www.ntu.edu.sg/eee>

We are seeking a Research Fellow in Systems and Control whose primary focus will be developing security solutions for expanding networked cyber-physical systems. This role will involve designing, analyzing, and implementing advanced control methods that safeguard interconnected devices, networks, and physical infrastructure against evolving cyber threats. This position represents a unique opportunity to shape the future of secure, resilient cyber-physical systems.

**Key Responsibilities:**

- Conduct advanced research in the field of networked systems security control.
- Develop and implement novel security control strategies for networked cyber-physical systems.
- Publish research findings in high-impact journals and present at leading conferences.
- Prepare report and contribute to the preparation of research proposals and project reports.
- Assist in supervising students with their research projects.

**Job Requirements:**

-
