Job Description	

Research Opportunities

Operating systems

Work description

- Design of a key-value storage system that takes advantage of different remote and disaggregated storage devices, including persistent memory devices, NVMe SSD, and SATA SSD.
- Implementation of a prototype of the previous system and design of compaction algorithms that

consider remote devices.

- Experimental evaluation of the developed prototype using synthetic and realistic workloads.

The tasks described in this working plan demand the application and development of concepts and techniques in the area of Software Engineering which are usually introduced in curricular units included in the curricula of the Integrated MSc in Informatics Engineering or the MSc in Informatics Engineering studies.

Academic Qualifications

- BSc Degree in Informatics Engineering.

Minimum profile required

- Knowledge on operating systems and distributed systems.
- Knowledge on storage systems.
- Experience with different key-value store systems, including RocksDB, BlobDB, Parallax, WisckKey, etc.

Preference factors

- Experience in designing and implementing key-value stores.
- Solid knowledge of heterogeneous storage stacks.

Maintenance stipend: € 651.12, according to the table of monthly maintenance stipend for FCT grants, paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the Regulations for Grants of INESC TEC and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under

What we offer

- **Multicultural and collaborative environment**
- A multicultural, international and collaborative environment that makes it easier to exchange ideas, work in networks and create synergies.
- **International projects**
- The possibility of working in international projects with some of the most important companies in the field.
- **Mentoring**
- Mentoring with the best researchers in the fields of electrical and industrial engineering, bioengineering, information technology and physics.
- **Self Improvement**
- The possibility of participating in international conferences, workshops, seminars and vocational training.
