development and applications

- Coordinate the preparation of project reports and deliverables
- Publish findings in top peer-reviewed journals and conference proceedings
- Collaborate with other researchers on project discussions and joint deliverables
- Support the preparation of research proposals and grant applications

Job Requirements:

- Must hold a PhD degree in transport engineering, maritime transport and management, computer science, or a related field from a good university;
- Excellent programming skills, such as Python, C++, Java, Julia, or other competent languages;
- A good record of publications in reputable peer-reviewed journals or conferences in maritime transport, logistics management, machine learning, deep learning, and optimization;
- Proficient in written and spoken English - essential for data analysis and communication with stakeholders
- Interpersonal skill with ability to work independently and develop solutions under strict timelines
- Experience in proposal writing and funding application is a plus.

We regret that only shortlisted candidates will be notified.
