<b>Job Title</b>	Doctoral Researchers and Postdoctoral Researchers, RF and millimeter-wave integrated circuit design
<b>Department</b>	T411 Dept. Electronics and Nanoeng
<b>Institution</b>	Aalto University , , Finland
<b>Date Posted</b>	Apr. 24, 2025
<b>Application Deadline</b>	Open until filled
<b>Position Start Date</b>	Available immediately
<b>Job Categories</b>	Graduate Student
<b>Academic Field(s)</b>	Electrical and/or Electronics
<b>Job Website</b>	<a href="https://aalto.wd3.myworkdayjobs.com/aalto/job/Otaniemi-Espoo-Finland/Doctoral-Researchers-and-Postdoctoral-Researchers--RF-and-millimeter-wave-integrated-circuit-design_R43074-1">https://aalto.wd3.myworkdayjobs.com/aalto/job/Otaniemi-Espoo-Finland/Doctoral-Researchers-and-Postdoctoral-Researchers--RF-and-millimeter-wave-integrated-circuit-design_R43074-1</a>

**Apply By Email**

**Job Description**

Aalto University is where science and art meet technology and business. We shape a sustainable future by making research breakthroughs in and across our disciplines, sparking the game changers of tomorrow and creating novel solutions to major global challenges. Our community is made up of 13 000 students, 400 professors and close to 4 500 other faculty and staff working on our dynamic campus in Espoo, Greater Helsinki, Finland. Diversity is part of who we are, and we actively work to ensure our community's diversity and inclusiveness. This is why we warmly encourage qualified candidates from all backgrounds to join our community.?

The Department of Electronics and Nanoengineering conducts research and arranges related courses in the fields of microelectronics, micro and nanotechnology, radio engineering, electromagnetics, and

## Doctoral Researchers and Postdoctoral Researchers, RF and millimeter-wave integrated circuit design Aalto University

space technology. The department research groups have active national and international collaboration with several institutes and companies. Research groups are working with world-class research facilities and instruments; the largest clean rooms in the Nordic countries are located in the Micro- and nanotechnology centre Micronova.

Join Our Cutting-Edge Research Team! We are seeking highly motivated doctoral researchers and post-docs to join our dynamic team.

Are you passionate about integrated circuit design and eager to work on groundbreaking technologies? Look no further!

Our renowned research group, lead by professor Jussi Ryytänen and Sr. Scientist Kari Stadius, specializes in RF and millimeter-wave integrated circuit design and is at the forefront of innovation in 5G/6G communication, joint communication and sensing, and the co-design of antennas and transceiver electronics. We are also engaged to AI-driven circuit and antenna design methodologies, setting new standards in the field. We possess an exceptional design and measurement environment, complete with access to advanced FinFET and GaN IC technologies, providing an unparalleled platform for your research and development.

You will receive hands-on education and gain invaluable experience, positioning yourself as an expert in high-frequency integrated circuit design.

Your experience and ambitions

Ideal candidates should possess basic skills in integrated circuit design and a strong drive to push the boundaries of technology. Your specific research tasks will be customized based on your interests and expertise, ensuring you make the most of this unique opportunity.

Applicants for doctoral researcher position must fulfill the admission criteria of the Aalto Doctoral Programme and, if chosen for a position, apply for, obtain, and accept the right to pursue doctoral studies at Aalto University. For more information on the general requirements and the application process for doctoral studies, please visit [[url=https://www.aalto.fi/en/doctoral-education/how-to-apply-for-doctoral-studies](https://www.aalto.fi/en/doctoral-education/how-to-apply-for-doctoral-studies)]<https://www.aalto.fi/en/doctoral-education/how-to-apply-for-doctoral-studies>

For post-doctoral applicants we expect proven track-record and experience on IC design with silicon or compound semiconductor technologies. Preferably your thesis has revolved around this topic, and you have both theoretical and practical skills on our discipline.

What we offer

Doctoral Researchers and Postdoctoral Researchers, RF  
and millimeter-wave integrated circuit design  
Aalto University

#### Doctoral Researchers

Position will be filled for 2 &#43; 2 years (doctoral studies are expected to take 4 years in total). The salary will be based on both the job requirements and the employee's personal performance in accordance with the salary system of Finnish universities. The starting salary for a doctoral student is approximately 3000 EUR/month.

#### Postdoctoral Researchers

At Aalto, you will have an opportunity to progress on your path at academic career or evolve within our industrial-oriented projects as a real expert. You will participate on our innovative team as an independent thinker and act as an instructor for our doctoral students. Based on your personal preferences, you may engage yourself with teaching activities and gain such academic merits. The starting salary for a post-doc researcher is approximately 4000 EUR/month.

We offer a wide range of staff benefits, such as occupational health care, flexible working hours, excellent sports facilities on campus and several restaurants and cafés on campus with staff discounts. The position is located at the Aalto University Otaniemi campus which can be easily reached by public transport.

#### Join us!

To apply, please share the following application materials with us through our recruitment site (&#34;Apply now!"). All materials must be submitted in English and in PDF format, a maximum of five (5) files, each no larger than 5MB. Application material should include:?? \* Letter of motivation (max. one page). Please describe your background and future plans?? \* A curriculum vitae (CV) and possible list of publications with complete study and employment history \* A study transcript provided by the applicant's university that lists studies completed and grades achieved \* For doctoral researchers: A copy of the M.Sc. degree certificate or equivalent. (for doctoral study application, it will need to be officially translated into Finnish, English or Swedish). If the degree is still pending, then a plan for its completion must be provided? \* For doctoral researchers: Plan for obtaining a certificate of proficiency in English/Finnish/Swedish for doctoral study application if the position is offered

As we will start reviewing and interviewing candidates immediately, please apply as soon as possible, at the latest May 30th, 2025.

Please note: Aalto University's employees should apply for the position via our internal HR system Workday (Internal Jobs) by using their existing Workday user account (not via the external webpage for open positions). Aalto University's students and visitors should apply as external candidates with personal (not aalto) email.?
