### Job Description

I am looking for hiring a postdoctoral fellow for my group in the areas of Computational Modeling (CFD-DEM) of multiphase flow and experimental research in a industry sponsored project with a major pharmaceutical company in USA. The start date of the project is in June/July and thus local candidates (already in US/Canada) with a PhD in Chemical/Mechanical/Materials/Civil Engineering, Pharmaceutical Sciences, or Physics (specializing in Computational Fluid Dynamics (CFD)), are requested to apply. The candidate should demonstrate excellence in research and strong communication skills. PhD graduates with solid research experience in at least 3 of the following - (a) CFD modeling, (b) DEM Modeling (c) programming in C/C++ and (d) powder handling experiments, are highly preferred.

Our group's webpage is as follows:
