**Job Description** 

## JOIN THE DEPARTMENT OF CIVIL, MINING AND PROCESS ENGINEERING

The Department of Civil, Mining and Process Engineering offers an interdisciplinary platform where innovation meets real-world application. Through a blend oftheory and practice, we prepare students to address engineering challenges in sectors such as infrastructure design, mining, and process optimisation. Ourprograms focus on sustainable solutions, allowing students to develop practical skills in civil, mechanical, mining, and process engineering. Students engage inreal-world projects, collaborating with industry and government to design sustainable infrastructure and optimise manufacturing processes. If you are passionate about advancing engineering technologies and shaping the future of this dynamic field, we invite you to apply and look forward to welcoming you toour vibrant academic community.
