We are looking for highly motivated individuals to join the Ministry of Education Key Laboratory of Optoelectronic Science and Technology for Medicine, located at FJNU. Our lab has interdisciplinary research programs focusing on the development of novel optical imaging / spectroscopy methods for biomedical applications, including cancer detection, transplant organ evaluation, and skin imaging. Representative technologies include optical coherence tomography (OCT), multi-photon microscopy (MPM), fluorescence molecular imaging (FMI), Raman spectroscopy, and endoscopy. A detailed description of our research can be found at: <http://blog.umd.edu/biophotonics/research/>

Candidates with experiences on biomedical engineering, optical engineering, electrical or mechanical engineering and strong publication / funding records in Biophotonics will be competitive. Highly qualified candidates can also be considered for faculty (Lecturer or Associate Professor). If you are interested, please email a copy of your CV/resume to: [yuchen@fjnu.edu.cn](mailto:yuchen@fjnu.edu.cn)
