Job Description

The Department of Civil, Architectural, and Environmental Engineering (CAEE) in the Armour College of Engineering at Illinois Institute of Technology (Illinois Tech) invites applications for a full-time non-tenure-track teaching faculty position to support its educational activities. Candidates are sought at the level of assistant or associate teaching professor, with a standard teaching load of six course equivalents per year. Priority areas of expertise for this position include but are not limited to engineering graphics; surveying; engineering mechanics; thermal-fluid sciences; construction engineering and management; and/or building materials and systems (e.g., mechanical, electrical,

lighting). The successful candidate is expected to assume the role of primary instructor and coordinator of our capstone senior design course for civil and architectural engineering students.

Successful candidates are expected to have a graduate degree in civil, architectural, or environmental engineering or related field (a doctorate is preferred but not required), to have relevant work experience, and to have a professional engineering license or be able to obtain a professional engineering license within four years of beginning employment with Illinois Tech. The expected start date is August 2025.

Teaching faculty members in the CAEE department and Armour College of Engineering are expected to be recognized as experts in their fields; committed to excellence in teaching and mentoring; active in their professional communities; and active in departmental service through academic advising of undergraduate and graduate students, mentoring student organizations, supervising senior design projects, and contributing to the maintenance and modernization of laboratories. Successful candidates are expected to demonstrate a strong commitment to undergraduate and graduate teaching, as well as to diversity, equity, and inclusion through teaching and service endeavors.

Illinois Institute of Technology is a private, Ph.D.-granting research university with world-renowned programs in architecture, engineering, computing, the sciences, humanities and social sciences, psychology, business, law, and design. It is ranked #1 in Illinois and #23 nationally in the Wall Street Journal's "America's Best Colleges 2024." Founded in 1890, Illinois Tech was built to provide access to higher education for students from all backgrounds and to make a difference in the world through technology-oriented education. This guiding mission and purpose – where students could prepare for meaningful roles in a changing society and achieve professional and economic advancement – remains just as relevant today. As such, diversity and inclusion are part of the day-to-day experience here and a central component of our culture. Illinois Institute of Technology today is home to a diverse and global student population; is committed to providing opportunities to enhance the diversity of its faculty and staff; and strongly encourages applicants from all backgrounds to apply for this position, especially those underrepresented in the field.

The CAEE Department at Illinois Tech offers ABET-accredited Bachelor of Science degrees in civil engineering and architectural engineering, as well as a variety of master's degrees and doctoral degrees in civil, architectural, and environmental engineering and related disciplines. The department has 15 full-time faculty, 4 full-time staff, over 200 undergraduate students, and approximately 200 graduate students. Among an array of recent investments, in 2020 the CAEE Department received a large gift from Trimble to establish a state-of-the-art Technology Lab, expanding the university's expertise in civil and environmental infrastructure, building construction field systems, and project

controls and collaboration. The newly created Trimble Technology Lab allows Illinois Tech to integrate cutting-edge technology into its curricula, empowering graduates to rapidly transform how buildings and living environments are designed and constructed. More information on faculty, teaching, research, facilities, and degree programs in the CAEE Department can be found at: <https://www.iit.edu/caee>.

The application package must include (i) a cover letter, (ii) curriculum vitae, (iii) statement of teaching philosophy, (iv) a statement on the candidate's commitment to equity and inclusion in education, and (v) contact information for at least three references submitted as a single PDF file (with file naming convention: lastname_firstname.pdf) to **caee-hiring-teaching@iit.edu**. The one-page statement on equity and inclusion should address specific past and/or potential contributions to the equitable and inclusive delivery of academic instruction and support to students from diverse backgrounds of countries, cultures, and socioeconomic conditions. Review of applications will begin immediately. To ensure full consideration, applications must be received by June 30, 2025; however, review of applications will continue until the position has been filled. Additional questions regarding the position should be emailed to Dr. Brent Stephens, Arthur W. Hill Endowed Professor and Department Chair, at brent@iit.edu.

EEO/AA Policy

Illinois Institute of Technology is an EEO/AA/Title VI/Title IX/Section 504/ADA/ADEA employer committed to enhancing excellence, equity, inclusion, and diversity within its community. Illinois Institute of Technology is committed to fostering an inclusive environment and actively seeks applications from individuals of all backgrounds and identities regardless of race, color, sex, marital status, religion, creed, national origin, disability, age, unfavorable discharge from the military, status as a protected veteran, sexual orientation, including gender identity and expression, order of protection status, genetic information, and any other protected class. All qualified applicants will receive equal consideration for employment.
