Job Description	

Job Description Summary

The successful candidate will be expected to establish a strong extramurally-funded research program, teach undergraduate and graduate courses, contribute to mentoring students, participate in outreach, and provide service to the department, college, and university. The successful candidate is expected to bring experience, innovation, enthusiasm, and leadership to the Department of Industrial and Systems Engineering. Salary will be commensurate with experience and qualifications. Eligible candidates must hold an earned doctorate in Industrial and Systems Engineering or a closely related engineering discipline at the time of employment.

Minimum Qualifications

Assistant Research Professor
Auburn University

Eligible candidates must hold an earned doctorate in Industrial and Systems Engineering or a closely related engineering discipline at the time of employment.
Candidates selected for this position must be able to meet eligibility requirements to work in the United States at the time of employment and continue working legally for the proposed term of employment.

Desired Qualifications
Special Instructions to Applicants

Applicants should complete the application online, submit a cover letter, CV, transcripts, separate statements of research and teaching experience, and three letters of recommendation.
Review of applications will begin 07/14/2025 and continue until a candidate has been identified.
