**Job Title** Office of Commercialization (OTC) Fellow

**Department** Department of Energy

<https://www.energy.gov/technologycommercialization/office-technology-commercialization>

**Institution** Varies

Washington, District of Columbia

**Date Posted** Jul. 3, 2025

**Application Deadline** Jul. 29, 2025

**Position Start Date** Available immediately

**Job Categories** Graduate Student

Post-Doc

**Academic Field(s)** Polymer Science

Ocean Engineering

Nuclear

Naval Architecture & Marine Engineering

Mining/Minerals

Mechanical Engineering

Material/Metallurgy

Industrial & Systems Engineering

Ecological and Environmental

Engineering Physics

Engineering Mechanics

Energy Technology

Electrical and/or Electronics

Computer Engineering

Computer Science

Civil Engineering

Chemical/Petroleum

commercializing energy technologies that support the missions of the Department.

The fellowship is offering the opportunity to learn about the federal government and its role in commercializing energy technologies with the Office of Technology Commercialization (OTC) at the U.S. Department of Energy (DOE) in Washington, D.C. You will participate in projects and activities that support commercialization goals across the DOE energy and innovation portfolio by guiding strategy, conducting analysis, identifying opportunities to streamline and simplify processes, and designing & implementing funding programs in the following areas:

- Commercialization Programs team
  - National Lab Commercialization Programs
    - [Technology Commercialization Fund \(TCF\) Base](#)
    - [Energy I-Corps](#)
    - [Technology Commercialization Internship Program](#)
    - [EnergyTech University Prize](#)
  - Partnership Intermediary Agreements (PIA)
  - Foundation for Energy Security and Innovation (FESI)
- Market Analysis team

OTC has the responsibility to interface with the DOE applied research offices and private entities that need energy technology solutions to technology commercialization. Applicants should have a deep interest in energy technologies, commercialization strategies, and various pathways for overcoming market and regulatory barriers for the adoption of new technologies.

### What will I be doing?

Throughout the appointment, you will develop a broad understanding of the energy industry, the technical needs and opportunities for energy technologies, and the commercialization impacts of various program, policy, and regulatory decisions. You will have an opportunity to collaborate with experts at the DOE, national labs, and industry leaders across the energy value chain to help analyze and overcome key commercialization barriers to various energy technologies. You will help shape the OTC's agenda and enable collaborations across the Commercialization Programs team. You will also bolster the development of the OTC's strategic plan and other programmatic activities.

With guidance from a mentor, you may have an opportunity to:

- Deepen your understanding of new technologies and markets both through direct engagement as

well as through attendance at various brown bags, briefings, or other meetings.

- Engage in the development of new programs leveraging prize and other funding mechanisms to maximize the positive commercial outcomes of DOE's funding programs.
- Collaborate with numerous technical leads from multiple DOE technology offices to facilitate policy reform and program execution, identifying ways OTC can address challenges, fill gaps, and facilitate efficient and effective policy and program execution.
- Participate in expert, external reviews of funding applications and help develop selection recommendations to office leadership.
- Collaborate on the development of white papers on various energy technology commercialization-related topics.
- Prepare and present briefings to upper management, external offices, or Congressional staff.
- Develop analysis projects related to tracking the commercialization impacts of OTC and other commercialization programming within DOE.
- Participate in various energy technology commercialization conferences and workshops.
- Propose new initiatives or program and process improvements to enhance and/or streamline office decision-making or otherwise advance the OTC mission of energy technology commercialization.
