INESC TEC's Biomedical Engineering Research Center (C-BER) has been establishing partnerships with several hospitals to advance research in the field of neurology, collecting data that is extremely important for the group's scientific advances in the diagnosis and follow-up of neurological diseases.

This scholarship aims to have the candidate be one of the people in charge of the clinical studies that are going on, carrying out the data collection protocols and managing and analyzing the data.

Academic Qualifications

• Master's degree in Biomedical Engineering, Electrical and Computer Engineering, or similar fields.

Minimum profile required

- Previous experience in data collection in clinical settings and in the use of medical technologies, as well as laboratory prototypes.
- Knowledge of signal processing techniques in the field of neuroengineering.

Preference factors

 Previous participation in data collection in a clinical setting, preferably with patients with Parkinson's disease.

Maintenance stipend: € 1309.64, according to the table of monthly maintenance stipend for FCT grants, paid via bank transfer. Grant holders may be awarded potential supplements, according to a quarterly evaluation process (Articles 19, 21 and 22 of the Regulations for Grants of INESC TEC and Annex II), up to a maximum limit of 50% of the monthly maintenance stipend.

INESC TEC supports costs with registration, enrolment or tuition fees, during the grant duration, under the terms established in the internal document: "Payment of Tuition fees to grant holders".

The grant holder will benefit from health insurance, supported by INESC TEC.

Application Period

Since 07 Aug 2025 to 21 Aug 2025

Centre

Biomedical Engineering Research

Scientific Advisor

João Paulo Cunha

What we offer

- Multicultural and collaborative environment
- A multicultural, international and collaborative environment that makes it easier to exchange ideas, work in networks and create synergies.
- International projects
- The possibility of working in international projects with some of the most important companies in the field.
- Mentoring
- Mentoring with the best researchers in the fields of electrical and industrial engineering, bioengineering, information technology and physics.
- Self Improvement
