Job Description

Established in 1922, Midwestern State University is a public university in Wichita Falls, Texas, located halfway between Oklahoma City and the Dallas-Fort Worth metroplex. The university has an average enrollment of 5,800 students, with approximately 20% enrolled in graduate programs. Rooted in a values-based culture, Midwestern State University aims to empower students and our community through a commitment to academic excellence, personal growth, and a culture of lifelong learning, inquiry, and innovation. The university is strongly committed to serving first-generation students and those receiving financial assistance.

The McCoy College of Science, Mathematics and Engineering currently has 52 full-time faculty

members in 6 academic departments/schools. The College serves more than 700 students in STEM majors and provides graduate programs in Biology, Computer Science, and Geosciences. The McCoy School of Engineering houses a BS in Mechanical Engineering (MENG) program, a BS in Industrial Technology (BSIT) program, a MS in Industrial Technology program, a minor in Petroleum Engineering (PETE), and we are starting the BS in Electrical Engineering program.

The McCoy School of Engineering at Midwestern State University invites applications for a full-time 9-month tenure-track Assistant Professor to begin Spring 2026. As a faculty member in the McCoy School of Engineering you will be expected to:

- 1. Teach courses in electrical engineering;
- 2. Develop a record of research activity,
- 3. Provide service to the department, college, and university,
- 4. Advise/mentor electrical engineering students.

The ability to develop and teach a broad number of basic electrical engineering courses and labs such as integrated circuit design, digital signal processing, embedded and real-time systems, electrical power design, and senior design is desired.

Required Qualifications include:

- 1. D. in Electrical Engineering (EE) or equivalent field of study (ABD applicants must have degree conferred by December 2025);
- 2. Preference given to those with ABET accreditation and mentoring of senior capstone projects experience;
- 3. The ability to develop and teach a broad number of basic electrical engineering courses and labs such as integrated circuit design, digital signal processing, embedded and real-time systems, electrical power design, and senior design is desired;
- 4. The selected candidate should have a vested interest in undergraduate teaching, research, and service.

For consideration, please submit the following materials:

- 1. Cover Letter
- 2. Curriculum Vitae
- 3. Other document(s) directly related to required qualifications (a list of courses and labs you could teach effectively, statements of teaching and research for undergraduate level.)
- 4. List of references
