one of the largest EEE schools in the world and ranks 4th in the field of Electrical & Electronic Engineering in the 2025 QS World University Rankings by Subjects.

Today, the School has become one of the world's largest engineering schools that nurtures competent engineers and researchers. Each year, the School graduates over a thousand students who are ready to take on great ambitions and challenges.

For more details, please view: https://www.ntu.edu.sg/eee

We are looking for a Research Fellow to support the research on multi-layer metasurfaces for wireless communications, sensing, and computing.

Key Responsibilities:

- Design the multi-layer metasurfaces prototype for wireless communications, sensing, and computing applications.
- Conduct full-wave simulation.
- Document research outcome to publish at top international conference / journal.
- Write report for the project progress.

Job Requirements:

- PhD degree in Electrical and Electronic Engineering, or related field
- Have prior experience in metasurface prototyping
