University of Doha for Science and Technology (UDST) was officially established by the Emiri Decision No13 of 2022, and it is the first national university specializing in academic applied, technical, and professional education in the State of Qatar. UDST has over 70 bachelor's and master's degree programs, diplomas, and certificates. The university houses 5 colleges: The College of Business, the College of Computing and Information Technology, the College of Engineering and Technology, the College of Health Sciences, and the College of General Education, in addition to specialized training centers for individuals and companies. UDST is recognized for its student-centered learning and state-of-the-art facilities. Its world-renowned faculty and researchers work on developing the students' skills and help raise well-equipped graduates who proudly serve different sectors of the economy and contribute to achieving human, social, and economic development goals nationally and internationally.

With more than 700 staff and over 8,000 students, UDST is the destination of choice for applied and experiential learning. The University is recognized for its student-centered learning and state-of-the-art facilities. Our faculty are committed to delivering pedagogically-sound learning experiences that incorporate innovative learning technologies. Our aim is to enhance students' skills and help develop talented graduates who can effectively contribute to a knowledge-based economy and make Qatar's National Vision 2030 a reality.

Our eligible employees enjoy competitive compensation and benefits, in accordance with applicable UDST policies. These benefits include:

- Generous academic annual leave
- Tax free salary
- Fully furnished upmarket accommodation (inclusive of utilities: water & electricity)
- Annual flights for spouse and 3 children (up to 18 years old)
- Children's education allowance
- Relocation/Shipping allowance
- Professional development opportunities
- International health insurance
- In-house immigration services (to help you through the residency process)
- Full access to our recreational facilities
- Research and professional development support

The College of Engineering and Technology invites applications for instructional faculty positions in the Industrial Trades (Process Operation) Department at the Industrial Trades Instructor rank.

**Industrial Trades Instructor**  
**University of Doha for Science and Technology**

## **Responsibilities**

### **Your Commitment**

As an instructional faculty member, you will report to the Head of the Department and be responsible for delivering and evaluating a broad range of courses within the Industrial Trades (Process Operation) programs. You will evaluate student progress and manage the resources of the learning environment. You will be responsible for the inventory, monitoring, and maintaining workshop and laboratory equipment within the specified program area. The instructional member trainer will work with other instructional members, faculty members and staff as required to provide exceptional learning experiences for the trainees and students.

You will keep course portfolio documents required for program review and accreditation processes and engage in instructional and new program development. The College encourages applications from instructional members who will also enhance innovation

## **Qualifications**

Instructional faculty members will be appointed in the appropriate rank based on their education and experience. The broad criteria are provided below.

### **For Industrial Trades Instructor**

- A Bachelor's degree in Chemical Engineering or a closely related field, specifically Process Engineering or Control, from a recognized and accredited institution.

### **Experience**

- A minimum of five (5) years of employment experience as a practitioner within the relevant discipline
- A minimum of three (3) years of training experience.
- Competency in curriculum development, implementation, and evaluation.
- Apply various teaching approaches in the classroom and for practice experiences, including the laboratory, simulation, and practicums.
- Ability to use a variety of educational technology and platforms.
- Demonstrate academic and information literacy skills.

### **Other required skills**

- Commitment to applied and experiential learning as a pedagogy and a key feature of UDST's mandate.
- Ability to design, develop, deliver, and evaluate authentic learning experiences and assessments incorporating contemporary tools and resources to maximize content learning in context and to develop the knowledge, skills, and attitudes identified in program outcomes.
- Digital literacy and demonstrated fluency in technology systems and an ability to model and facilitate the use of current and emerging digital tools to support research and learning.
- Demonstrate ability to develop technology-enriched learning environments that enable students to participate in their learning actively.
- Commitment to the teaching profession's effectiveness, vitality, and self-renewal through self-driven continuous professional development and life-long learning.
- Effective oral and written communication skills.
- Collaborative and collegial spirit and a demonstrated ability to establish rapport with learners, colleagues, sponsor-employers, and community members.

### **How to Apply**

Applicants must meet all essential qualifications to be shortlisted for the position; other qualifications may be a deciding factor in selection. Qualifications and experience will be assessed through your application, including but not limited to curricula vitae, cover letters, references and teaching dossiers. It is the applicant's responsibility to provide appropriate examples that illustrate how s/he meets each requirement. Failing to do so could result in the application being rejected. We thank all applicants for applying for the role; only those selected for further consideration will be contacted.
