Job Description

The Department of Electrical Engineering at the University of Notre Dame invites applications for positions in all areas of Electrical Engineering, at all levels, with particular emphasis on mathematical foundations of learning-enabled systems, autonomous decision and control, communications, information theory, signal, and/or image processing.

All areas of electrical engineering will be considered, but the department particularly encourages applications from individuals who would complement existing strengths in the electronics, circuits, and systems research area. Competitive candidates will have systems-level experience in one or more of

the following: electrical power systems, biomedical and/or health-related systems, IoT-enabled manufacturing, smart city or smart agriculture applications, remote sensing, autonomous vehicles or vehicular networks, wireless systems and networks.

The Department offers Ph.D., MS, and undergraduate degrees. Tenured and tenure-track faculty members are expected to excel in classroom teaching, lead highly visible research projects that attract substantial external funding, advise graduate students, and serve the profession and the University. More information about the department can be found at <https://ee.nd.edu/>.

Applicants are invited to provide any or all of the following: cover letter; curriculum vitae; comprehensive research plan; statement of teaching philosophy and interests; contact information for three professional references; and statement regarding potential engagement with and commitment to [Notre Dame's Catholic Mission](#), including respecting the dignity of every person, building a community in which all can flourish, and living in solidarity with all, particularly the most vulnerable.

All materials can be submitted at <https://apply.interfolio.com/172806>. To guarantee full consideration, applicants are encouraged to apply by November 30, 2025.

The University of Notre Dame is situated within the South Bend, Indiana metropolitan area, which has a population of approximately 325,000. South Bend is recognized for its relative affordability and strategic geographic location, approximately 75 minutes east of Chicago and 45 minutes from the Lake Michigan shoreline and Indiana Dunes National Park. These locations are accessible via the South Shore Line commuter rail. The city is also served by the South Bend International Airport, offering convenient air travel options.

EEO/AA Policy

At the University of Notre Dame, we are guided both by the letter and spirit of the law, as well as by our belief in the value of diversity to our Catholic community. We base all employment decisions in a way that furthers the principle of equal employment opportunity.

The University recruits, hires, trains, and promotes persons in all job titles without regard to race, color, national or ethnic origin, disability, veteran status, age, or sex (except where sex is a bona fide occupational qualification).

All personnel actions, such as compensation, benefits, transfers, layoffs, return from layoff, University-sponsored training, social and recreational programs, education, and tuition assistance, will be similarly administered without regard to race, color, national or ethnic origin, disability, veteran status, age, or sex.

We are dedicated to equal employment opportunities and to the implementation of positive programs designed to ensure the prevention of any discriminatory practices, either intentional or inadvertent, with respect to race, color, national or ethnic origin, mental or physical disability, veteran status, age, or sex, including sexual orientation, pregnancy and gender identity.
