This position includes classroom and lab teaching assignments in civil engineering courses, as well as freshman engineering. The successful candidate is also expected to direct student design projects. It is expected that this faculty member will have a research agenda that leads to scholarly works and the engagement of undergraduate students.

Required Knowledge and Skills

Doctorate in Civil Engineering or closely related field required. ABD candidates will be considered at the rank of Instructor if the terminal degree will be completed by the end of their first year of employment. If employment starts in August 2026, terminal degree must be completed by the end of July 2027.
