Job Title Research Fellow (Signal Processing and Machine

Learning)

Department School of Electrical and Electronic Engineering

Institution Nanyang Technological University

Singapore, , Singapore

Date Posted Oct. 13, 2025

Application Deadline Open untill filled

Position Start Date Available Immediately

Job Categories Research Scientist/Associate

Academic Field(s) Computer Science

Electrical and/or Electronics

Main-Campus-Singapore/Research-Fellow--Signal-Processing-and-Machine-Learning-_R00022141

Apply By Email

Job Description

School of Electrical and Electronic Engineering is one of the founding Schools of the Nanyang Technological University. Built on a culture of excellence, the School is renowned for its high academic standards and research. With over 3,000 undergraduates students and 2,000 graduate students it is one of the largest EEE schools in the world and ranks 4th in the field of Electrical & Electronic Engineering in the 2025 QS World University Rankings by Subjects.

We are hiring a Research Fellow in Signal Processing and Machine Learning to develop signal processing and machine learning algorithms and methods for accurate localization and tracking of 5G network User Equipment (UE) in urban environments.

Group website: https://personal.ntu.edu.sg/wptay/

Key Responsibilities:

- Study 5G protocol and implementation to uncover protocol/waveform features, impairments due to implementations and urban environment that could facilitate/impair UE localization.
- Develop the signal model for localization of UEs in the urban environment incorporating signal propagation.
- Develop signal processing and machine learning algorithms and methods for wireless localization and tracking of UEs in 5G networks.
- Perform software/hardware implementation and empirical studies.
- Prepare report and conduct presentation at seminars.
- Assist PI in proposal writing and help supervise graduate students.

Job Requirements:

- Ph.D. in Electrical Engineering, Computer Science, Statistics, or other related fields.
- Familiarity with machine learning and signal processing algorithms for wireless communications.
