Job Description

The University of Texas at Arlington (UTA) is looking for a postdoctoral fellow to join a research project sponsored by the NSF/DoD on Secure Communication. The postdoctoral fellows will be advised by Prof. Remi Chou. The postdoc must have expertise in one or more of the following areas: Information Theory or Machine Learning for Communications.

The positions are available as early as January 2026 with a duration of one year and will be renewed for, at least, another year based on satisfactory progress. The application package must include a CV (including a full list of publications), the contact of three referees, and a cover letter. Please email your application to uta2025applications@gmail.com.
