engineering design and practice.

The successful candidate will teach courses at both graduate and undergraduate levels, develop innovative instructional techniques, and contribute to curriculum development in collaboration with other faculty members. Preference will be given to candidates with experience teaching mechanical systems design, computer aided design (CAD), engineering materials and associated labs, manufacturing and senior design. In addition, familiarity with incorporating artificial intelligence (AI) and machine learning (ML) into instruction will be considered an asset.

For information about the Grove School of Engineering and the Mechanical Engineering Department, please visit <https://www.ccny.cuny.edu/engineering>.

Candidates must be legally authorized to work full-time in the United States.

QUALIFICATIONS

Ph.D. in Mechanical Engineering or a related field required.

Preferred Qualification:

- Experience in teaching at the undergraduate and graduate level and a strong commitment to excellence in teaching. Experience in teaching mechanical systems design, computer aided design, engineering materials and associated labs, manufacturing and senior design.
- Professional experience with industry and familiarity with AI are a plus.

COMPENSATION

\$89,933 - \$107,686

CUNY offers faculty a competitive compensation and benefits package covering health insurance, pension and retirement benefits, paid parental leave, and savings programs. We also provide mentoring and support for research, scholarship, and publication as part of our commitment to ongoing faculty professional development.

HOW TO APPLY

Only applications submitted through CUNYfirst will be considered for this position.
