The College of Engineering, Architecture, and Technology at Oklahoma State University is pleased to invite applications for a Teaching and/or Professional Faculty of Practice (non-tenure-track) position with expertise in material science and materials engineering. Candidates with professional experience in design and management of material science and materials engineering and an interest in teaching and mentoring undergraduate engineering students are encouraged to apply. Candidates with an MS degree from an accredited engineering program is required but a Ph.D with significant industrial and teaching experience is preferred. The successful applicant will have demonstrated potential as an excellent teacher and/or mentor and in developing interdisciplinary laboratory and design experiences at the undergraduate level. The position will be associated with Endeavor, the new 72,000 square foot interdisciplinary College of Engineering Architecture and Technology (CEAT) undergraduate laboratory scheduled to open in the fall semester of 2018 and reports to the CEAT Endeavor Director and the CEAT Associate Dean of Academic Affairs. Responsibilities include: (1) managing Endeavor's Materials and Design lab cluster, (2) developing and leading interdisciplinary capstone design teams in projects related to materials engineering, (3) collaborating with CEAT department heads and faculty to develop and teach material science and materials engineering laboratory experiences for specific courses in the CEAT undergraduate programs and (4) developing and teaching formative design and learning experiences related to materials failure analysis, materials testing, and materials applications. While the position has a 9-month appointment period, there may be opportunities for up to three additional months of summer salary support associated with teaching or research.

Oklahoma State University and the College of Engineering, Architecture and Technology was established in 1890 as a comprehensive land grant university. Today with over 4,000 students on its main campus, the college enjoys an excellent reputation with and strong ties to its many regional and national industry partners.

Interested and qualified candidates should apply online @ <https://jobs.okstate.edu>. Search for this listing by entering Req4173 in the Keyword or ReqID box.

A single pdf file will be requested with your application. The file should include:

- a letter of application;
- a curriculum vita;
- a statement of teaching interests and philosophy;
- names and contact information of five references.

Send requests for additional information to the search committee chair, Dr. Daniel Fisher, at osumae@okstate.edu.

To receive full consideration, apply by December 15, 2017. Recruitment will continue until the position
