Job Description

Job Description

The Visiting Scholar will be conducting the research in Wireless Communication, RF Sensing, and Machine Learning.

The successful candidate will contribute his/her expertise and research capabilities to enhance our research initiatives and academic programs. The position requires a candidate with a strong background in these fields, holding a PhD degree and having at least 5 years of experience after obtaining the doctorate.

Responsibilities:

- 1. Conduct Innovative Research: The Visiting Scholar will be responsible for conducting cutting-edge research in wireless communication, RF sensing, and/or machine learning. This involves formulating research objectives, designing experiments, and analyzing data to develop novel solutions and advancements in the field.
- 2. Collaborate with Faculty and Students: The selected candidate will collaborate closely with faculty members, researchers, and graduate students, actively participating in research discussions, seminars, and workshops to exchange knowledge and ideas.
- 3. Publish Research Findings: Dissemination of research findings is a vital aspect of this role. The Visiting Scholar is expected to publish research papers in reputable journals and conferences, contributing to the academic community's knowledge base.
- 4. Mentorship and Guidance: As a senior researcher, the Visiting Scholar will provide mentorship and guidance to graduate students and junior researchers. This includes supervising research projects, assisting with thesis work, and nurturing the professional development of aspiring scholars.
