The Department of Computer Science offers BS and MS in Computer Science and BS in Data Science. We also offer BS in Computer Science and Linguistics (jointly with the Dept. of Linguistics and Language Development, MS in Data Science (jointly with the Dept. of Math/Stat), MS in Bioinformatics, and support BS in Software Engineering (curriculum jointly administrated with the Dept. of Computer Engineering). The faculty members are excellent teacher scholars with rich publication records in the areas of machine learning, data science, information security, mobile networking, social networks, bioinformatics, etc. The Department, including both faculty and students, enjoys rich interaction and collaboration with Silicon Valley. We have received a Best Practice Implementation Grant from the Center for Inclusive Computing to increase the representation of women and under-represented minorities in undergraduate computing.

The Science Education Program consists of a team of dedicated teacher-scholars recognized for their commitment to: 1) the preparation and ongoing support of justice-centered, socially responsive secondary science teachers, 2) the transformation of undergraduate science courses and student learning experiences, and 3) engaging in innovative science education research uniting the College of Science with the Lurie College of Education. An MS degree in Science Education is offered.
