Job Description

Job Description

The Biomedical Engineering department at Stevens Institute of Technology is seeking qualified applicants for part-time adjunct teaching assignments for BME 342, Transport in Biological Systems Lab.

The focus of this laboratory course consists of a central experiment and writing focus broken out into five sections of experiment/topic. These experiments are designed to demonstrate principles discussed in the lectures as well as introduce and familiarize students with basic principles and methods used widely in biomedical engineering to study transport phenomena in the human body. The writing lab report associated with each experiment will teach students how to write a specific component of a
