**Apply By Email**

**Job Description**

The department of mechanical engineering at Marquette University seeks excellent, highly-motivated graduate students to conduct advanced research on the processing-structure-property relationship of additively manufactured metallic alloys through experimental testing, characterization and numerical simulation. We have one open position for PHD student with full research assistantship starting Fall, 2024. We welcome students with backgrounds in but not limited to materials science, mechanical engineering, physics, chemistry. Interested applicants can reach out to Dr. Zhou (le.zhou@marquette.edu) for more details.

Information about Marquette University (Milwaukee, WI, USA) and the Mechanical Engineering Department can be found here:
