Job Description

The successful candidate will be expected to utilize the high bay structural testing laboratory. The candidate will be responsible for developing and teaching undergraduate and graduate courses, developing an externally funded research program, and providing service to the department, university, and profession. Teaching of related courses in the curriculum may also be required depending upon the candidate's area of expertise and the needs of the department. Participation in the senior design course is expected.

Minimum Requirements: BS in an engineering field; Ph.D. in Civil Engineering or closely related
