actively engaged in research and publication. If hired, the successful candidate will be expected to continue to publish in internationally recognised, peer-reviewed journals and attend international conferences in support of METU NCC's research goals. The successful candidate must be able to teach undergraduate core/elective courses. The normal teaching load at METU NCC is 3 courses per semester (equivalent to 9 contact hours/week).. Details about the Industrial Engineering Program at METU NCC can be found at <http://ncc.metu.edu.tr/ine/home>.

METU NCC provides competitive salary packages and subsidised on-campus accommodation. Please visit [Working and Living at METU NCC](#) for detailed information about what METU NCC has to offer, such as social security, retirement and health coverage, which also includes an indicative table of remuneration levels.

Applicants must apply online at [Guidelines for Application to Faculty Positions](#) and follow the instructions therein to complete the application procedure. They are required to submit a cover letter that states their area of expertise, a full CV including a list of publications, and contact information for three references.

Review of applications will continue until the positions are filled.
