Job Description

The Computer Engineering and Software Engineering Programs at the Middle East Technical University Northern Cyprus Campus (METU NCC) is seeking applicants for a permanent faculty position at all ranks. The employed candidate should be able to teach in both programs. New Ph.D.s and experienced academics are welcome to apply.

Details about the METU NCC Computer and Software Engineering programs can be found at http://ncc.metu.edu.tr/cng/home, and https://ncc.metu.edu.tr/sng/home .

The program's current research strengths are Modelling & Simulation, Distributed Systems and

Campus

Networking, Performance Modelling, Human/Computer Interaction, Software Engineering, Web-centric Computing, and Computer Vision.

We are particularly interested in applicants with strong computer science and/or computer engineering background. The positions are full-time and will be available from Fall 2024-2025 (September 2024) semester or such other date that is mutually agreed upon.

METU NCC is committed to high-quality research and teaching traditions. The regular teaching load at METU NCC is 3 courses per semester (equivalent to 9 contact hours/week). METU NCC provides competitive salary packages and subsidised on-campus living accommodations. Please visit Working and Living at METU NCC for detailed information on what METU NCC has to offer, such as social security, retirement and health coverage, which also includes an indicative table of remuneration levels.

Applicants must apply online at Guidelines for Application to Faculty Positions and follow the instructions therein to complete the application procedure. They are required to include a cover letter that states their area of expertise, a full CV including a list of publications, and contact information for three references.

The review of applications will continue until the positions are filled.

For more information, please contact: Prof. Dr. Enver Ever at eever(at)metu.edu.tr.
