aspires to be a leading school for Sustainable Urban Systems. Currently, it has over 50 faculty members and more than 1,500 students, and is rapidly expanding its range of educational and research activities. Its faculty has led major university-wide strategic research thrusts in space creation, water research and sustainable built environment. Moving forward, CEE is addressing critical problems in urban systems such as building structures and energy systems, sustainability of urban cities, and resiliency to natural and unnatural risks.

To fuel further development, we invite applications for Assistant/Associate Professor (Tenure-Track) position in **Construction Management**.

Applicants should have at least a PhD in Civil or Construction Management. Suitable candidates must demonstrate strong and relevant research and teaching ability. In addition, strong interdisciplinary expertise is required in research areas such as construction automation, building information modelling, construction digitalisation, lean construction, built environment sustainability, systems modelling and risk management. Potential teaching areas include civil engineering management, building information modelling (BIM), engineering economics and project evaluation, information technology in civil engineering, construction technology and processes, and Design for Manufacturing and Assembly (DfMA).

Application Procedures

Applicants are invited to submit their applications (*cover letter, detailed CV including publication list, research and teaching statements, citation report, and/or any other documents that demonstrate your qualifications and credentials*) through the [NTU Workday career portal](#).

Application remains open until the position is filled. Only short-listed candidates will be notified.
