Job Description	

The School of Engineering and Computer Science at the University of Evansville invites applications for a Visiting Assistant Professor of Electrical Engineering position to start in August 2024.

Responsibilities

The primary responsibilities include teaching up to 12 contact hours per semester. Course assignments will be a combination of lecture and laboratory courses. All teaching is at the undergraduate level. Preference will be given to candidates who are passionate about undergraduate engineering education and can teach a variety of courses in electrical engineering. The courses offered

in the program are given in the link below.

https://www.evansville.edu/majors/electricalengineering/courses.cfm

Required Education/Experience

Requirements include a doctorate or near completion in electrical engineering or a closely related field.

Application

Applications must be submitted online at https://www.evansville.edu/offices/hr/employment-application-form-faculty.cfm and must include a cover letter summarizing the candidate's background with the list of courses willing to teach, curriculum vitae, teaching philosophy, and contact information for three professional references attached as a single PDF file in the "Upload Additional Materials" section. Applications will be accepted until the position is filled, with priority given to those submitted by May 24.

The University of Evansville is a private, United Methodist Church-related, comprehensive university and a member of the Associated New American Colleges. The University enrollment is approximately 2,500 students.

EEO/AA Policy

The University of Evansville operates under a nondiscriminatory policy with regard to race, color, gender, gender identity and expression, creed or religion, national origin, age, disability, veteran status and all federally protected groups/classes. Minorities and underrepresented groups are encouraged to apply.

The University of Evansville participates in the E-Verify program.
